PK+ MyPharmacyApp

- **CUSTOMIZABLE**
- **PATIENT FRIENDLY**
- **ENGAGEMENT**
- **INTEGRATION**
- **ARTIFICIAL INTELLEGENCE**
- **VIDEO CARE**

OUR TECHNOLOGY

MyPharmacy mobile app built using IBM technology, designed for both your pharmacy and your patients.

It provides an instant online presence, enabling your patients to order new and refill prescriptions from your pharmacy at any time while on the go.

WHAT IT PROVIDES

- Customizable for your patients and your pharmacy.
- Automated RX Refill reminders. It allows you to maintain continuous contact with your patients.
- It is integrated with your pharmacy software, reducing waiting time and minimizing data entry errors.
- Artificial Intelligence: The app utilizes AI to monitor patient vitals and medication adherence at home for early intervention
- Video Care: It provides secure, easy, and on-demand patient counselling.

MEDICAL AND HEALTH CARE
